Introduction
What are Bugdays all about?

Introduction to the Bugday concept

- Users and developers are working together on fixing various bugs in Gentoo.

- Teaching people about the Gentoo development process.

- First Saturday each month in #Gentoo-Bugs on irc.freenode.net.

- Bugs are listed on http://bugday.gentoo.org with a link to our Bugzilla setup (http://bugs.gentoo.org).

- Users can poke developers when they have a fix for a bug and the developers are then able to commit it to the gentoo-x86 repository.
